INAP positioned to support wholesale growth of DediPath's strategic vision for the future at INAP's New York/New Jersey metro area data center in Secaucus, NJ

RESTON, Va. and HOCKESSIN, Del., May 14, 2018 (GLOBE NEWSWIRE) -- Internap Corporation (NASDAQ:INAP), a leading provider of high-performance data center services including colocation, cloud and network, and DediPath, a provider of infrastructure as a service (IaaS), today announced a multi-year colocation and IP transit agreement in INAP's New York/New Jersey metro area data center.

DediPath is committed to providing 100% uptime across its network infrastructure, with continuous availability and functionality.

"With the expansion of our service offerings we needed to find a facility that could both support our rapid growth as well as provide redundant infrastructure and 100% uptime. INAP's Secaucus facility fit the bill for us with its purpose-built data center", stated Ernie Quick, DediPath's CTO.

"Additionally, with INAP's 'Performance IP mix' DediPath is able to provide high bandwidth and low latency servers with up to 10Gbps connectivity," said Quick.

"INAP is pleased to welcome DediPath as a customer in our New York/New Jersey metro area data center," said Corey Needles, INAP USA's Senior Vice President and General Manager. "INAP data centers are a strong fit for companies in the IaaS space. These customers recognize INAP meets their infrastructure needs due to our patented, route-optimized connectivity to the cloud exchanges, high power density and agility to rapidly stand up a footprint which enables them to hyper-scale their infrastructure as they grow."

About INAP

Internap Corporation (NASDAQ:INAP) is a leading provider of high-performance data center services, including colocation, cloud and network. INAP partners with its customers, who range from the Fortune 500 to emerging start-ups, to create secure, scalable and reliable IT infrastructure solutions that meet the customer's unique business requirements. INAP operates in 57 primarily Tier 3 data centers in 21 metropolitan markets and has 98 POPs around the world. INAP has over 1 million gross square feet under lease, with over 500,000 square feet of data center space. For more information, visit www.inap.com.
