

## US Dedicated Expands Footprint with INAP for Colocation and Performance IP™ Services at Dallas Data Center

June 20, 2018

INAP selected for ability to meet US Dedicated's current customer needs and future growth plans.

The Dallas data center joins INAP's Atlanta and Seattle data centers to provide US Dedicated superiority in density of power, network and security services.

RESTON, Va. and LOS ANGELES, June 20, 2018 (GLOBE NEWSWIRE) -- Internap Corporation (NASDAQ:INAP), a leading provider of high-performance data center services including colocation, cloud, and network services, today announced a multi-year deal with US Dedicated LLC, a premium Infrastructure as a Service (IaaS) provider offering Dedicated Servers, Colocation, VPS, and distributed denial-of-service (DDoS) mitigations, for colocation and Performance IP services.

"INAP is pleased to welcome US Dedicated into our recently expanded Dallas data center," said Corey Needles, INAP USA's SVP and General Manager. "Dallas joins our Atlanta and Seattle data centers in providing our patented IP technology to meet US Dedicated's needs ensuring the best experience for their customers."

"We pride ourselves in providing our customers with the strongest global connection possible. The Northwest and Southeast are vast cloud locations and perfectly complement our connection points throughout the country," says Robby Hicks, Chief Executive Officer at US Dedicated. "We've had nothing but the best experience with Performance IP and know that we will be able to continually grow with INAP supporting our customer's current and future infrastructure needs."

US Dedicated now features three total data centers with INAP in [Atlanta](#), [Seattle](#) and the most recent addition in [Dallas](#), with plans for more strategic growth with INAP across the US.

"With performance, critical to the success of the US Dedicated platform, INAP is very excited to continue to be an integral partner in the growth of US Dedicated," said Alexis Nicholson, INAP Director of Sales. "We are certainly grateful and look forward to further development and growth together."

INAP's Performance IP service reduces latency and improves network performance by combining multiple carrier backbones and real-time route optimization. Performance IP provides reliable, high-speed IP service for stable, consistent connectivity.

### About INAP

Internap Corporation (NASDAQ:INAP) is a leading provider of high-performance data center services, including colocation, cloud and network. INAP partners with its customers, who range from the Fortune 500 to emerging start-ups, to create secure, scalable and reliable IT infrastructure solutions that meet the customer's unique business requirements. INAP operates in 57 primarily Tier 3 data centers in 21 metropolitan markets and has 98 POPs around the world.
