Agreement is for a long-term colocation contract at one of INAP's four Montreal data centers

iWeb chosen by this significant financial services customer, with over \$100 billion in assets, for its strategic location, power and dedicated security protocols

RESTON, Va., Sept. 17, 2018 (GLOBE NEWSWIRE) -- Internap Corporation (NASDAQ:INAP), a leading provider of high-performance data center services including colocation, cloud and network, and one of Canada's largest pension investment managers, today announced a multi-year colocation deal in INAP's Tier 3 design Montreal data center.

This renowned financial services customer handles some of the largest Canadian public entities and renewed their relationship with iWeb based on a successful 5-year track record of meeting all requirements. Under terms of the deal, iWeb will provide robust connectivity, guaranteed 100% power uptime and network access, all within a high-density green environment.

"We are happy to announce that a significant financial services customer has renewed for another multi-year colocation commitment at one of our Montreal data centers," said Roberto Montesi, SVP & GM iWeb Technologies. "We continually work with our customers to understand and evaluate their evolving IT Infrastructure needs, in order to adapt our solutions accordingly and contribute to great, long term relationships."
