

Internap Executive to Present at American Electronics Associations (AeA) Micro Cap Conference

ATLANTA - April 19, 2006 - Internap Network Services Corporation (AMEX: IIP), a leading provider of performance-based routing solutions over the Internet, today announced that David A. Buckel, vice president and chief financial officer will speak at The 2006 AeA Micro Cap Financial Conference (aeonet.org) on Tuesday, May 9th at approximately 9:20 PDT at the Monterey Plaza Hotel in Monterey CA.

Mr. Buckel will present the Internap(R) business model and its portfolio of technology solutions, which includes high-performance IP services, colocation services and proprietary route optimization products. Internap is among a select group of companies invited to attend the private event. A live audio Webcast of the presentation will be available on the Investor relations section of Internap's website at www.internap.com. Participants will need to register in order to access the Webcast, which will also be available on the Internap Web site for replay.

Founded in 1943, AeA is a nationwide trade association that represents all segments of the technology industry and strives to help its members' top line and bottom line.

About Internap

Internap is a market leader of intelligent route control solutions that bring reliability, performance and security to the Internet. The company's patented and patent-pending technologies address the inherent weaknesses of the Internet, enabling enterprises to take full advantage of the benefits of deploying business-critical applications such as e-commerce, Voice-over-IP (VoIP), video-conferencing and streaming audio/video across the Internet. Through a portfolio of high-performance IP and WAN optimization solutions, customers can bypass congestion points, overcome routing inefficiencies and optimize performance of their applications. Internap solutions are backed by an industry-leading performance guarantee that covers the Internet as opposed to just one network. These offerings include: network- and premise-based route optimization solutions, colocation, VPN, content distribution and managed security services.

Internap currently serves more than 2,100 customers, including Fortune 1000 and mid-tier enterprises in the financial services, government, travel/hospitality, manufacturing, media/entertainment, technology and retail industries. The company provides services throughout North America, Europe, Asia and Australia. For more information, please visit the company website at www.internap.com.
